

Pre-delivery inspections for used trucks and concrete pumps

Independent 3rd party inspection by German engineers

If you are going to purchase used concrete pumps or concrete mixer trucks there is always a risk. These machines are working in tough conditions and concrete work is not an easy job. We have seen recently many costly problems on such trucks. Small repair such as worn brake or a broken gauge can sum up to several hundred Euros.

But if the auger motor is broken or the pump cylinders do not work the repairs can easily extend to some thousand dollars. Therefore we recommend strongly an unbiased and independent inspection on concrete handling equipment.

MEVAS is performing inspections on used concrete pumps and mixer trucks of various brands. So far we have done pre-delivery inspections on machines of

Schwing, Stetter, Liebherr, Sanny, Putzmeister and some others, mounted on Mercedes, Scania and MAN trucks.

- Concrete Pump Inspection
- Concrete Mixer Truck Inspection
- Used Truck Inspection
- Tractor Head Inspections
- Used Trailer Inspection
- Fire Rescue Truck Inspection

We inspect pumps and trucks in Germany, Belgium, the Netherlands, France, Spain, Italy, Hungary, Romania, Austria, Sweden, Poland, Israel, United Kingdom, United Arab Emirates, Colombia, USA and some other places. MEVAS inspects machines on auctions.
